

KÄRCHER

**IDEAL FOR
QUICK CLEAN UPS.**

A simple-to-use compact sweeper with dust control.

PROFESSIONAL | KM 70/20 C

THE PERFECT MACHINE FOR SPOT CLEANING, AND SMALLER AREAS, FROM 2,000-20,000 SQUARE FEET.

The KM 70/20 C manual sweeper makes cleaning surfaces effortless and virtually dust-free thanks to the filter, sweeping roller and side brush - whether indoors or outside. The area performance is 7 times higher than with a broom. The sweeping roller can be adjusted in 6 steps and, in combination with the variable side brushes, achieves an optimal cleaning result on different floors. A height-adjustable push handle provides ergonomic operation for the intended user. The Home Base system allows for carrying additional items such as a waste can, to dispose of dust, dirt, debris and trash in one step. When the work is done, the KM 70/20 C can be stored in a space-saving manner in its parking position.

1 Adjustable push handle

- Excellent ergonomics due to triple adjustment option; simple one-touch power switch
- Foldable for space-saving parking

2 Main roller brush drive

- The main roller brush is driven by both wheels - for excellent performance
- Guaranteed to remove >95% of dirt from floor thanks to the improved main brush

3 Large dirt container

- Ergonomic container grip for easy handling and emptying
- Flat storage area allows for carrying additional items such as a waste can

4 Adjustable brush, lockable container and park setting put you in control

- Incrementally adjustable contact pressure for optimum sweeping results
- Roller and side brush can be completely lifted off the ground to protect bristles for transport
- Lock waste container or wheels to secure load and prevent rolling

5 Prominent dust filter

- The dust filter cleans the exhaust air and prevents dust from flying up during sweeping
- Filter system is easily accessible for quick and easy replacement

Technical data and equipment.

KM 70/20 C

TECHNICAL SPECIFICATIONS
