

APW SOFT ALLOY SHINE

APW Soft Alloy Shine soft metal powder is a heavy duty parts washer detergent specially formulated for use on soft metals. It contains a solvent-based cleaning booster particularly effective in penetrating and cleaning hard to remove grease, oil, tar, and carbon based deposits. Higher alkalinity and solvent provides the performance of APW Soft Alloy Shine while protecting soft metals such as aluminum and other non-ferrous metals. Formulated to work well in hard water. An extra-strength, high—but buffered—alkaline blend designed for maximum performance in soak tanks and automatic parts washers. APW Soft Alloy Shine is a non-caustic, solvent-boosted detergent with a fluorescent yellow color and characterized by a pleasant citrus scent.

DILUTION RATIO

Use dilution needed to achieve optimal cleaning will vary based on soil type, level of soil, and method of application. Water quality can also impact the amount of detergent required. Using hot water allows for a reduced level of detergent use.

- 0.5 - 2 oz per gallon

NON-CAUSTIC

- Protects your parts washer

SAFE FOR SOFT METALS

- Cuts heavy-duty dirt and grease without harming soft metals.

VERSATILE

- Extra load of softening agents so it works well with hard or soft water.

FAST ACTING

- Water-based solvent engineered to cut grease and suspend oils quickly.

COMPETITIVELY PRICED

- Excellent value and economical cost per gallon.

CORROSION INHIBITORS

- Extra inhibitors provide added protection against flash rusting.

NO-FOAM, QUICK RELEASE

- Non-foaming, quick-release surfactants extend life of wash water.

Product Information

Part No.	Size / Description	Ship Wt (lbs)
8.760-107.0	Landa APW Soft Alloy Shine Powder, 40 lb	46
8.760-108.0	Landa APW Soft Alloy Shine Powder, 400 lb	420

Parts washers are an essential piece of equipment in the commercial and industrial manufacturing industry. They remove grit, oil and abrasive dust that may be left over from manufacturing which threatens the integrity of any coating or further treatment. Utilization of an automatic parts washer will save time, money and manpower as well as ensure the excellence of the finished product.

WHY CHOOSE LANDA APW DETERGENTS?

Landa automatic parts washer detergents contain advanced formulas engineered specifically for use in aqueous parts washers and their specialized needs. Our advanced formulas include an exclusive multi-metal corrosion inhibitor for rust-protection of all wetted surfaces.

Safety & Certifications

OSHA/WHMIS/ GHS Compliant

Infotrac Listed

Kosher Certified

OSHA/WHMIS/GHS-Compliant SDS available, listed with Infotrac.
For emergency spills call 1-800-535-5053, International 1-352-323-3500.

Technical Data

Color: Yellow-Orange Powder

Scent: Citrus

Foaming Action: Non-Foaming

Water Conditioning for Hard Water (TDS): Best

pH: 12.2 - 12.8 (at 4 oz in 1 gal)

Dilution Ratio: 1 - 4 oz per gallon

Corrosion: Contains corrosion inhibitors to protect against corrosion and flash rusting

APPLICATIONS

- Diesel Engines
- Machinery and Heavy Equipment
- Aluminum Automobile Engine Parts
- Parts Made of Soft Metal

BEST TO REMOVE

- Oil & Grease
- Burnt Hydrocarbons
- Scale
- Varnish
- Carbon
- Mastic
- Rubber
