

THERMA-KLEEN

COMMERCIAL STEAM CLEANERS

THERMA-KLEEN ULTRA 1300

Made in
USA

The propane-fired Ultra 1300 Wet Steam Cleaner is a Clean Burning, compact system which delivers 1300 PSI/89.5 bar water pressure at temperatures up to 340° F/171° C. and with a low water volume, which equates to more effective cleaning, de-greasing and sanitizing. This smaller volume of liquid runoff to contain means a more environmentally friendly and safe work place.

The Therma-Kleen® Ultra 1300 is designed to clean quickly when time is a factor. With 1300 PSI, this workhorse cleans large areas, or numerous pieces of equipment quickly while only using a common 15-amp electrical circuit.

The Ultra 1300 is available in either Blue Powder Coat or Stainless-Steel.

THERMA-KLEEN
COMMERCIAL

The Ultra 1300 is ideally suited for Industrial facilities, restaurants/bakeries, public transportation, trucking companies, sports/event complexes, commercial cleaners, food processors, restoration & de-contamination, etc.

The Ultra 1300 is used for; cleaning equipment such as engines, transmissions, drive trains, etc. prior to working on them, removing chewing gum, preparing surfaces for paint, removing oils, grease fats, paraffin wax, cleaning & restoring bricks, blocks & masonry surfaces, removing graffiti, etc.
