

DEFOAMER

Too much foam can limit water pressure, negatively affecting cleaning efficiency. Landa Defoamer is a fast-acting, biodegradable agent that suppresses foam build up in soak tanks and automatic parts washers. It can be used with a phosphatizer as it does not interfere with phosphatizing. Landa Defoamer is extremely user-friendly, readily biodegradable and works effectively in hard or soft water. The high dilution ratio makes the cost-in-use very economical. Because Landa Defoamer is formulated to be used in automatic parts washers, it is compatible with any metal, painted or plastic pieces that can be cleaned in a parts washer. Contains silicone emulsion.

DILUTION RATIO

Use dilution needed to achieve optimal cleaning will vary based on soil type, level of soil, and method of application. Water quality can also impact the amount of detergent required. Using hot water allows for a reduced level of detergent use.

- 1:500 (add 1 - 2 oz as needed to control foam)

HIGHLY CONCENTRATED

- A dilution ratio over 1:500 = economical cost-in-use

COMPETITIVELY PRICED

- Economical cost per gallon

CONTROLS FOAM

- Suppresses foam build-up in soak tanks and parts washers.
- Protects your parts washer from damage.

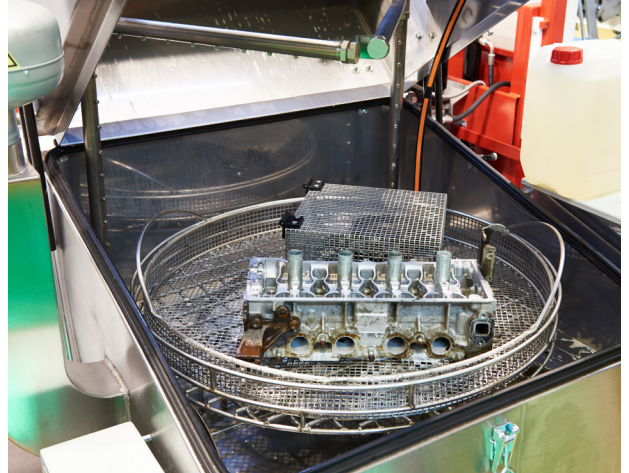

Product Information

Part No.	Size / Description	Ship Wt (lbs)
8.760-109.0	Landa Defoamer, 4 x 1 gal	34
8.760-110.0	Landa Defoamer, 55 gal	470

Parts washers are an essential piece of equipment in the commercial and industrial manufacturing industry. They remove grit, oil and abrasive dust that may be left over from manufacturing which threatens the integrity of any coating or further treatment. Utilization of an automatic parts washer will save time, money and manpower as well as ensure the excellence of the finished product.

WHY CHOOSE LANDA APW DETERGENTS?

Landa automatic parts washer detergents contain advanced formulas engineered specifically for use in aqueous parts washers and their specialized needs. Our advanced formulas include an exclusive multi-metal corrosion inhibitor for rust-protection of all wetted surfaces.

Safety & Certifications

OSHA/WHMIS/ GHS Compliant

Infotrac Listed

Kosher Certified

OSHA/WHMIS/GHS-Compliant SDS available, listed with Infotrac.
For emergency spills call 1-800-535-5053, International 1-352-323-3500.

Technical Data

Color: Opaque Liquid

Scent: None

Foaming Action: Reduces or eliminates foam

Water Conditioning for Hard Water (TDS): Yes

pH: 8.2

Dilution Ratio: 1:500 (add 1 to 2 oz as needed to control foam)

APPLICATIONS

- Parts Washers
- Soak Tanks
- Floor Scrubbers
- Carpet Cleaning Machines
- Ultrasonic Cleaning
- Wash Water Recycling Systems
