

MWP

Water Recovery System

- Recovers Up to 30 GPM
- 27 Gallon Working Tank
- Drain Port to Easily Clean Out Sludge
- 120V Transfer Pump

- Reliable 120V **Transfer Pump** capable of transferring 30 GPM of water to the holding tank
- High Density Polyethylene **Recovery Tank** for excellent thermal and chemical resistance, excellent impact resistance, and UV protected for longer life. The tank holds 27 gallons of water and has an optional caster wheel kit for easy site mobility
- Plumb the **Bulk Head Fitting** to an auxiliary tank for larger volume recovery needs
- **Bolt-on Mounting System** configured on the base to mount to a trailer for portability from site to site

COMPACT

ENVIRONMENTAL

- **High Water Shutdown** to protect the unit
- Simple **Curbside Controls** for easy use and compact design and 15' Power Cord for an extended reach
- Integrated **Molded Handles** provide a solid grip and easy loading and transportation
- **3 Stage Vacuum Motor** delivers 100 CFM, 100" sealed lift vacuum for a constant pull. The unit is rated for water up to 120°F and compatible with surface cleaners and hot water machines
- **Power Options** 120v 15amp can be run off a 3500 watt Generator

- Quick access through top of unit to **Filter Basket** to catch solids

- **Inlet Connection** fits included 50' of high temp 2" vac hose and scupper head, shown with optional caster wheel kit

MWP Recovery

SIPHON MUDDY WATERS AWAY

Stop wash water from flowing down a drain or away from your area by collecting the wastewater from pressure washing. As EPA laws become more prevalent and strive to conserve water quality, contract cleaners and construction sites will need to recover their wash water and runoff. Eliminate the problem with the MWP Recovery series which is capable of recovering and transferring up to 30 gpm of water and transferring to a holding tank. Its small footprint allows the MWP to be mounted on a trailer. Be fully in control of water flow with the optional water dikes and drain covers to stop water from flowing down a drain or away from your site. Comes standard with 50' feet of vacuum hose and a scupper head.

Recover wash water and help the environment while staying compliant. Wash water recovery is required by many cities and states. The MPW Series can make a complicated wash water recovery simple. With a compact footprint and a drain port at the bottom of the tank provides an easy option to clean out sludge recovered.

Model #	Part #	Electrical	Amps	Tank	Vac Motor	Recovery	Ship Wt (lbs)
MWP-30E	1.103-518.0	120V	15	27 Gallon	3 Stage 100 CFM 100" Sealed Lift	30 gpm	127

Dimensions: 24"L x 27"W x 59"H

SPEED IT UP WITH ACCESSORIES

We offer a number of pressure washer accessories to reduce your cleaning time. Depending on your cleaning application, choose from items such as flat surface cleaners like the Water Jet, rotary nozzles, extension wands and more.

If you're cleaning long hours at a time, the EASY!Force trigger gun is an ideal and innovative solution to alleviate user fatigue. It's designed to use its own recoil force to hold the trigger down, which means you won't have sore hands after hours of use.

We also offer accessories designed to lengthen the life of your equipment, such as hose reels, which not only protect the high-pressure hose from damage, but help with storage when not in use.

Give us a call to learn which accessories are suitable to use with your pressure washer - and your application.

DETERGENT FOR EVERY JOB

Landa innovative detergent lineup makes your cleaning job easier and faster. Phosphate-free to meet the most stringent environmental demands without sacrificing cleaning effectiveness. We'll match you with a product designed for your specific application.
