K-JET 2500 JETTER

Pipe cleaning made easy.

PORTABLE WATER JETTER

The K-Jet 2500 jetter cleans slow-moving or clogged pipes using a pulsing high-pressure pulsing stream of water to blast away blockages and debris build-up. A specialized nozzle uses a high-pressure stream of water directed at multiple angles, including a reverse angle, to propel the jet forward and through curves to break up clogs.

Features

- Reliable Honda GX270 gas engine
- 3 GPM @ 2500 PSI
- Kärcher triplex plunger pump
- Durable, corrosion resistant aluminum frame
- One forward, three back jetting nozzle
- Flat free tires
- 50 ft high-pressure hose
- 100 ft hose reel

POWERED by
HONDA
