4. TECHNICAL SPECIFICATIONS

Receiver

Power supply	160...440 VAC - 50/60 Hz
LED indicators	Power supply, Channel A activated, Channel B activated
Power consumption	2 VA
Reception frequency	433.92 MHz
Receiver sensitivity	-108 dBm
Operating temperature	-10°...+60° C
Relay outputs	5 A / 250 VAC max.
Maximum terminal cross-section	2.5 mm ²
Weight / IP	58 g / IP20
Dimensions (WxHxD)	90x64x18

Remote control

Power supply	12 VDC battery
Transmission frequency	433.92 MHz
Transmission power	10 mW
Security coding	Rolling Code
Operating temperature	-10°...+60° C
Dimensions (width x height x depth)	18 x 90 x 64
